

Example 1.1: Linear Model vs Logistic GLM

Plot of Multi Batch Regression data

DHARMA nonparametric dispersion test via sd of
residuals fitted vs. simulated

Simulated values, red line = fitted model. p-value (two.sided) = 0.536

DHARMA nonparametric dispersion test via sd of
residuals fitted vs. simulated

DHARMA nonparametric dispersion test via sd of
residuals fitted vs. simulated

DHARMA nonparametric dispersion test via sd of
residuals fitted vs. simulated

Simulated values, red line = fitted model. p-value (two.sided) = 0.832
